

Clamp

Cable Suspension

Preformed Line Products' Cable Suspension Clamps are used with through bolts, which serve as a clamping member, and are shaped to securely grip messenger wire to the pole. A nut and square washer is used between the clamp and the pole to provide proper spacing. Cable suspension clamps are tested to CSA-C83 specifications.

Catalogue Number	No Of Bolts	Clamp Bolt Diameter (Inches)	Clamp Length (Inches)	Mounting Hole Diameter (Inches)	Strand Diameter (Inches)	Standard Package
